Course Curriculum & Modules

Advanced Intellectual Property Law and Rights Management Training Course

Introduction

Advanced Intellectual Property Law and Rights Management Training Course is designed to equip participants with advanced legal knowledge, strategic competencies, and practical skills for protecting, managing, commercializing, and enforcing intellectual property rights across diverse industries. The programme provides an in-depth understanding of patent law, trademark protection, copyright and neighbouring rights, industrial designs, geographical indications, trade secrets, digital intellectual property, licensing agreements, technology transfer, and intellectual property portfolio management. Participants will explore national, regional, and international intellectual property frameworks, including the World Intellectual Property Organization (WIPO), the Agreement on Trade-Related Aspects of Intellectual Property Rights (TRIPS), and relevant international conventions. Particular emphasis is placed on emerging developments in artificial intelligence, digital content ownership, software protection, biotechnology patents, data governance, and cross-border intellectual property disputes.

The course also focuses on transforming intellectual property from a legal compliance requirement into a strategic organizational asset. Participants will develop competencies in IP audits, intellectual property valuation, rights acquisition, licensing negotiations, royalty management, commercialization strategies, infringement investigations, litigation support, and alternative dispute resolution. Through practical case studies, legal simulations, contract drafting exercises, and real-world industry scenarios, learners will examine how organizations can identify intellectual property assets, mitigate infringement risks, maximize commercial value, and safeguard proprietary innovations. The training further explores the legal and ethical implications of generative AI, digital piracy, online trademark infringement, open-source licensing, and emerging technologies. By the end of the programme, participants will be better positioned to design effective intellectual property protection strategies, strengthen innovation governance, manage complex IP portfolios, and support sustainable business growth in increasingly competitive and technology-driven markets.

Course Duration

10 days

Course Objectives

By the end of this training course, participants will be able to:

- Interpret advanced national, regional, and international intellectual property laws, treaties, and regulatory frameworks.
- Develop comprehensive IP protection strategies covering patents, trademarks, copyrights, industrial designs, and trade secrets.
- Apply advanced patent prosecution, registration, ownership, and enforcement principles.
- Strengthen trademark portfolio management, brand protection, and anti-counterfeiting strategies.
- Evaluate copyright ownership, digital content licensing, neighbouring rights, and online infringement risks.
- Conduct intellectual property audits, due diligence assessments, and IP risk evaluations.
- Design effective IP commercialization, technology transfer, and innovation monetization strategies.
- Negotiate complex intellectual property licensing, franchising, royalty, and assignment agreements.
- Apply intellectual property valuation methodologies to mergers, acquisitions, investments, and financial reporting.
- Address AI-generated content, software ownership, data protection, and emerging digital IP challenges.
- Develop effective IP infringement investigation, enforcement, litigation, and dispute resolution strategies.
- Strengthen organizational IP governance, compliance frameworks, and confidential information protection.
- Integrate intellectual property management into corporate strategy, research commercialization, and sustainable innovation.

Target Audience

- Intellectual property lawyers, legal practitioners, advocates, and corporate legal advisers.
- Intellectual property officers, patent agents, trademark professionals, and copyright administrators.

- Corporate executives, business development managers, and organizational strategy leaders.
- Researchers, scientists, academics, and university technology transfer officers.
- Innovation managers, R&D professionals, inventors, and entrepreneurs.
- Government regulators, policymakers, intellectual property examiners, and enforcement agencies.
- Technology companies, software developers, digital content creators, and media professionals.
- Licensing specialists, investment professionals, consultants, and intellectual property portfolio managers.

Course Modules

Module 1: Advanced Intellectual Property Law and International Legal Frameworks

- Foundations and evolution of modern intellectual property law.
- International IP treaties, conventions, and enforcement mechanisms.
- WIPO frameworks and the TRIPS Agreement.
- National and regional intellectual property legislation.
- Harmonization of international IP standards and cross-border protection.
- Case Study: Examination of how an international technology company protects its patents and trademarks across multiple jurisdictions, including the challenges of differing national IP laws.

Module 2: Advanced Patent Law, Registration and Protection Strategies

- Patentability requirements: novelty, inventive step, and industrial applicability.
- Patent application procedures and international filing systems.
- Patent prosecution, examination, opposition, and appeals.
- Patent ownership, employee inventions, and joint inventorship.
- Patent infringement assessment and enforcement strategies.
- Case Study: Analysis of a pharmaceutical patent dispute involving patent validity, generic competition, compulsory licensing, and access to essential medicines.

Module 3: Trademark Law, Brand Protection and Anti-Counterfeiting

- Advanced trademark registration and portfolio management.
- Trademark distinctiveness, infringement, and passing off.
- International trademark registration and brand expansion.
- Online brand protection and domain name disputes.
- Anti-counterfeiting, customs enforcement, and brand monitoring.
- Case Study: A multinational consumer goods company discovers counterfeit products being sold through online marketplaces and must develop a coordinated trademark enforcement strategy.

Module 4: Copyright Law, Digital Rights and Content Ownership

- Copyright ownership, authorship, and economic rights.
- Moral rights and neighbouring rights protection.
- Digital copyright enforcement and online piracy.
- Software, databases, multimedia, and digital publication rights.
- Copyright licensing, assignments, and royalty administration.
- Case Study: A media organization discovers unauthorized reproduction of its digital content across multiple online platforms and evaluates available enforcement remedies.

Module 5: Industrial Designs, Trade Secrets and Confidential Information

- Industrial design registration and legal protection.
- Trade secret identification and protection strategies.
- Confidentiality agreements and non-disclosure obligations.
- Protection of proprietary manufacturing processes and know-how.
- Employee mobility, information leakage, and trade secret misappropriation.
- Case Study: A former employee joins a competitor and allegedly transfers confidential manufacturing information, raising questions about trade secret protection and contractual enforcement.

Module 6: Intellectual Property Audits and Portfolio Management

- Identification and classification of organizational IP assets.
- Conducting comprehensive intellectual property audits.
- IP ownership verification and documentation.
- Portfolio optimization and strategic asset prioritization.
- IP risk management and compliance monitoring.
- Case Study: A multinational organization conducts an IP audit before an acquisition and discovers unregistered trademarks, expired patents, and disputed ownership of software assets.

Module 7: Intellectual Property Valuation and Financial Management

- Principles of intellectual property valuation.
- Income-based, market-based, and cost-based valuation methods.
- Patent, trademark, copyright, and technology valuation.
- IP assets in mergers, acquisitions, and investment transactions.
- Royalty forecasting, financial reporting, and IP-backed financing.
- Case Study: A technology start-up seeks venture capital funding and must establish the commercial value of its patented software and proprietary technology.

Module 8: IP Licensing, Franchising and Commercial Contract Management

- Intellectual property licensing models and structures.
- Exclusive, non-exclusive, and sole licensing arrangements.
- Franchise agreements and brand usage rights.
- Royalty calculations, payment structures, and audit clauses.
- Drafting, negotiating, and managing complex IP contracts.
- Case Study: A global restaurant franchise negotiates trademark and operational know-how licensing agreements with a regional business partner while addressing quality control and territorial restrictions.

Module 9: Technology Transfer and Innovation Commercialization

- Technology transfer frameworks and commercialization models.
- University-industry research collaboration agreements.
- Patent commercialization and technology licensing.
- Spin-offs, start-ups, and research-based enterprises.
- Innovation ownership, revenue sharing, and commercialization risks.
- Case Study: A public university develops a renewable energy technology and negotiates commercialization rights with a private-sector investor.

Module 10: Artificial Intelligence, Software and Emerging Digital IP Rights

- Intellectual property ownership in AI-generated works.
- Copyright protection for AI training data and digital outputs.
- Software patents, source code, and open-source licensing.
- Blockchain, NFTs, and digital asset ownership.
- Legal risks involving generative AI, automated creativity, and algorithmic innovation.
- Case Study: A software company uses generative AI to develop commercial content and faces disputes over training data, copyright ownership, and third-party intellectual property infringement.

Module 11: International IP Protection and Cross-Border Enforcement

- International patent and trademark protection systems.
- Madrid System and Patent Cooperation Treaty frameworks.
- Cross-border intellectual property infringement.
- Jurisdictional issues and international enforcement cooperation.
- Customs measures and international anti-counterfeiting initiatives.
- Case Study: A fashion brand discovers unauthorized replicas being manufactured in one country and distributed through e-commerce platforms in several international markets.

Module 12: IP Litigation, Dispute Resolution and Enforcement

- Civil and criminal remedies for IP infringement.

- Patent and trademark infringement litigation.
- Evidence collection and expert witness preparation.
- Mediation, arbitration, and alternative dispute resolution.
- Injunctions, damages, and settlement negotiations.
- Case Study: Two technology companies engage in a patent infringement dispute involving competing product designs, licensing negotiations, and potential litigation.

Module 13: Intellectual Property in Biotechnology, Pharmaceuticals and Life Sciences

- Biotechnology patents and pharmaceutical innovation.
- Patent protection for genetic technologies and biological inventions.
- Plant variety protection and agricultural innovation.
- Regulatory exclusivity and pharmaceutical patent strategies.
- Compulsory licensing, public health, and access to medicines.
- Case Study: A pharmaceutical manufacturer evaluates patent protection and licensing options for a newly developed medicine while balancing commercial rights and public health interests.

Module 14: IP Governance, Compliance and Organizational Risk Management

- Establishing corporate intellectual property policies.
- IP ownership in employment and consultancy relationships.
- Compliance audits and internal IP control systems.
- Data confidentiality, cybersecurity, and proprietary information protection.
- Board-level oversight and strategic IP governance.
- Case Study: An international engineering company discovers that employees are sharing confidential technical drawings through unauthorized cloud platforms and develops an improved IP governance framework.

Module 15: Advanced IP Strategy, Policy Development and Future Trends

- Intellectual property and global innovation policy.
- IP strategies for digital transformation and emerging technologies.
- ESG, sustainability, and intellectual property rights.
- Competition law, market dominance, and IP-related regulatory challenges.
- Developing future-ready intellectual property management strategies.
- Case Study: A renewable energy company develops an IP strategy for commercializing green technology internationally while balancing patent protection, licensing partnerships, competition requirements, and technology accessibility.

Training Methodology

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Register as a group from 3 participants for a Discount

Send us an email: info@datastatresearch.org or call +254724527104

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to DATASTAT CONSULTANCY LTD account, as indicated in the invoice so as to enable us prepare better for you.

Certification & Learning Methodology

- Hands-on practical delivery with real-world datasets, case studies, and lab exercises.
- Post-training mentorship, access to class resources, and customized follow-up support.
- Participants who successfully complete the course receive an accredited Datastat Certificate of Completion.

How to Enroll & Reserve Your Seat

1. Online Registration: Visit https://datastatresearch.org/courses/advanced-intellectual-property-law-and-rights-management-training-course to register online.
2. Email Booking: Send participant details to training@datastatresearch.org for official invoice & reservation.
3. Support & Assistance: Inquire via phone +254 724 527 104 | +254 734 969 612.
