Course Curriculum & Modules

Blended Finance and Development Investment Structuring Training Course

Introduction

Blended Finance and Development Investment Structuring Training Course provides comprehensive knowledge and practical skills for designing, structuring, financing, and managing innovative development investment projects. The course explores how public finance, private capital, concessional funding, development finance institutions, philanthropic resources, and commercial investments can be strategically combined to mobilize capital for sustainable development. Participants gain practical insights into blended finance mechanisms, development investment frameworks, public-private partnerships, risk-sharing arrangements, financial modelling, investment structuring, and capital mobilization strategies aligned with the Sustainable Development Goals (SDGs).

The training further examines innovative financing instruments, development impact assessment, investment readiness, project bankability, financial sustainability, and institutional collaboration. Through international case studies and practical exercises, participants learn how to structure financially viable and development-oriented investments across infrastructure, renewable energy, healthcare, agriculture, and other critical sectors. The course emphasizes emerging global investment trends, climate finance, impact investing, development finance innovation, and strategic capital allocation to strengthen investment outcomes in developing and emerging markets.

Course Objectives

- Understand blended finance principles and development investment frameworks.
- Develop innovative capital mobilization and financing strategies.
- Apply financial modelling and investment structuring techniques.
- Evaluate concessional finance and commercial investment opportunities.
- Design effective risk-sharing and credit enhancement mechanisms.
- Strengthen project bankability and investment readiness.
- Understand development finance institutions and their mandates.
- Apply public-private partnership financing approaches.
- Evaluate environmental, social, and governance investment criteria.
- Integrate climate finance and sustainable investment principles.
- Assess development impact and investment additionality.
- Strengthen financial risk assessment and mitigation strategies.
- Develop sustainable investment portfolios and financing structures.

Organizational Benefits

- Improved development investment planning and execution.
- Enhanced access to domestic and international capital.
- Stronger public-private investment partnerships.
- Improved financial sustainability and project bankability.
- Better investment risk management and allocation.
- Increased capacity to attract institutional investors.
- Enhanced environmental, social, and governance compliance.
- Improved development impact measurement and reporting.
- Stronger financial decision-making and resource allocation.
- Greater effectiveness in mobilizing private capital for development.

Target Audiences

- Development finance professionals and investment officers.
- Government policymakers and public-sector finance managers.
- Development finance institution representatives.
- Investment bankers and financial analysts.
- Public-private partnership project managers.
- International development and donor agency professionals.
- Infrastructure and renewable energy investment specialists.
- Impact investors, fund managers, and financial consultants.

Course Duration: 10 days

Course Modules

Module 1: Fundamentals of Blended Finance

- Principles, concepts, and global blended finance frameworks.
- Public, private, philanthropic, and concessional capital.
- Development finance ecosystems and investment stakeholders.
- Blended finance opportunities in emerging economies.
- Sustainable Development Goals and development investment priorities.
- Case study: International Finance Corporation blended finance initiatives.

Module 2: Development Investment Structuring Frameworks

- Investment structuring principles and methodologies.
- Capital stack design and financing arrangements.
- Investment lifecycle and project development frameworks.
- Financial feasibility and investment readiness assessments.
- Strategic investment allocation and capital optimization.
- Case study: African Development Bank development investment structures.

Module 3: Concessional Finance and Capital Mobilization

- Concessional loans, grants, guarantees, and subsidies.
- Catalytic capital and private investment mobilization.
- First-loss capital and subordinated financing.
- Donor funding and development finance coordination.
- Mobilizing institutional investors for development projects.
- Case study: World Bank concessional financing initiatives.

Module 4: Public-Private Partnership Financing

- Public-private partnership models and financing structures.
- Government guarantees and private capital participation.
- Risk allocation and contractual financing arrangements.
- Project preparation and procurement frameworks.
- Revenue models and long-term financial sustainability.
- Case study: Kenya's Nairobi Expressway public-private partnership.

Module 5: Financial Modelling and Investment Analysis

- Development investment financial modelling techniques.
- Cash flow projections and financial forecasting.
- Net present value and internal rate of return analysis.
- Sensitivity analysis and investment scenario planning.
- Debt service coverage and financial sustainability.
- Case study: Renewable energy project financial modelling.

Module 6: Investment Risk Allocation and Mitigation

- Financial, operational, regulatory, and political risks.

- Risk-sharing mechanisms and investment protection.
- Credit guarantees and insurance instruments.
- Foreign exchange and interest rate risk management.
- Risk-adjusted investment returns and capital protection.
- Case study: Multilateral Investment Guarantee Agency investment guarantees.

Module 7: Credit Enhancement and Guarantee Mechanisms

- Credit enhancement instruments and structures.
- Partial credit and partial risk guarantees.
- First-loss facilities and subordinated debt.
- Political risk insurance and investment protection.
- Improving investor confidence and creditworthiness.
- Case study: African Development Fund guarantee mechanisms.

Module 8: Climate Finance and Green Investment Structuring

- Climate finance mechanisms and investment frameworks.
- Green bonds and sustainability-linked financing.
- Renewable energy and climate adaptation investments.
- Carbon markets and climate-related investment opportunities.
- Environmental, social, and governance risk integration.
- Case study: Green Climate Fund renewable energy investments.

Module 9: Development Finance Institutions and Donor Partnerships

- Roles of multilateral and bilateral development institutions.
- Development finance institution investment strategies.
- Donor coordination and co-financing arrangements.
- Institutional investment mandates and funding requirements.
- Strategic partnerships for development capital mobilization.
- Case study: European Investment Bank development financing.

Module 10: Impact Investing and Development Additionality

- Impact investing principles and market opportunities.
- Financial returns versus development impact.
- Investment additionality and market development.
- Social impact measurement and reporting.
- Impact assessment frameworks and performance indicators.
- Case study: Global Innovation Fund impact investment model.

Module 11: Infrastructure and Sector-Specific Investment

- Infrastructure financing and capital requirements.
- Healthcare, transport, and agricultural investments.
- Energy transition and sustainable infrastructure.
- Sector-specific investment risk assessment.
- Structuring long-term infrastructure financing.
- Case study: Senegal's solar energy investment projects.

Module 12: Investment Due Diligence and Project Bankability

- Technical, legal, and financial due diligence.
- Environmental and social safeguards.
- Project feasibility and bankability assessments.
- Investment documentation and compliance requirements.
- Investment appraisal and approval processes.
- Case study: World Bank infrastructure project appraisal frameworks.

Module 13: Capital Markets and Innovative Financing Instruments

- Development bonds and thematic bond issuance.
- Structured finance and securitization mechanisms.
- Equity participation and mezzanine financing.
- Institutional investors and capital market mobilization.
- Innovative financing and alternative investment instruments.
- Case study: African Development Bank's successful green bond issuances.

Module 14: Investment Governance and Performance Management

- Investment governance and accountability frameworks.
- Financial monitoring and portfolio management.
- Development performance indicators and reporting.
- Transparency, compliance, and fiduciary risk management.
- Investment evaluation and portfolio optimization.
- Case study: International Finance Corporation investment performance standards.

Module 15: Advanced Development Investment Structuring and Strategy

- Designing integrated blended finance structures.
- Negotiating investment terms and financing agreements.
- Scaling development investments across emerging markets.
- Building sustainable investment pipelines and partnerships.
- Strategic capital mobilization and investment execution.
- Case study: Scaling renewable energy investments through the Scaling Solar initiative.

Training Methodology

- Expert-led presentations and interactive technical discussions.
- Practical blended finance structuring exercises.
- Financial modelling and investment appraisal simulations.
- International development investment case study analysis.
- Group assignments and collaborative investment planning.
- Role-playing exercises involving investor negotiations.
- Project bankability and risk assessment workshops.
- Peer learning and experience-sharing sessions.
