Course Curriculum & Modules

Advanced International Financial Reporting Standards (IFRS) Training Course

Introduction

Advanced International Financial Reporting Standards (IFRS) Training Course provides comprehensive professional knowledge and practical expertise in applying complex IFRS requirements to financial reporting, accounting transactions, and corporate disclosures. The course explores advanced financial accounting principles, international accounting standards, financial statement preparation, revenue recognition, lease accounting, financial instruments, consolidation, business combinations, fair value measurement, impairment assessments, and sustainability-related financial disclosures. Participants will develop advanced competencies in interpreting IFRS amendments, addressing complex accounting judgments, strengthening financial reporting accuracy, and ensuring compliance with international accounting requirements. Through practical exercises, technical discussions, and real-world case studies, the programme enhances professional capacity in financial analysis, regulatory compliance, corporate governance, and transparent financial reporting.

The training also emphasizes the strategic application of IFRS in multinational corporations, financial institutions, public sector organizations, and other complex business environments. Participants will explore emerging developments in international accounting, digital financial reporting, accounting automation, International Sustainability Standards Board (ISSB) requirements, and integrated reporting practices. Particular attention is given to professional judgment, materiality assessments, financial statement disclosures, and the treatment of complex transactions across different industries and jurisdictions. By incorporating internationally recognized case studies and practical financial reporting scenarios, the course equips participants with the technical skills to address evolving accounting challenges, improve audit readiness, support informed decision-making, and maintain high standards of financial accountability.

Course Objectives

By the end of this course, participants will be able to:

- Interpret and apply advanced International Financial Reporting Standards.
- Evaluate complex accounting transactions and financial reporting treatments.
- Prepare compliant financial statements and technical disclosures.
- Apply IFRS 15 revenue recognition requirements.
- Assess lease accounting under IFRS 16.
- Evaluate financial instruments under IFRS 9.
- Apply consolidation and business combination principles.
- Conduct fair value measurement and impairment assessments.
- Analyze deferred tax and income tax accounting.
- Strengthen financial reporting accuracy and audit readiness.
- Evaluate IFRS amendments and emerging accounting developments.
- Integrate sustainability reporting and ISSB disclosure requirements.
- Exercise professional judgment in complex financial reporting decisions.

Organizational Benefits

- Improved compliance with international accounting standards.
- Enhanced financial reporting transparency and accountability.
- Reduced financial reporting errors and regulatory risks.
- Improved audit preparation and internal control systems.
- Stronger corporate governance and financial oversight.
- Better management of complex accounting transactions.
- Increased stakeholder confidence in financial statements.

- Improved financial analysis and strategic decision-making.
- Enhanced organizational readiness for IFRS amendments.
- Greater efficiency in financial reporting processes.

Target Audiences

- Chief Financial Officers and Finance Directors.
- Financial Controllers and Accounting Managers.
- Senior Accountants and Financial Reporting Officers.
- Internal and External Auditors.
- Tax Consultants and Financial Advisors.
- Corporate Finance Professionals and Analysts.
- Risk Management and Compliance Officers.
- Accounting Consultants and Professional Practitioners.

Course Duration: 10 days

Course Modules

Module 1: Advanced IFRS Framework and Conceptual Foundations

- Advanced IFRS principles and conceptual framework.
- Recognition, measurement, presentation, and disclosure.
- Materiality, professional judgment, and accounting estimates.
- IFRS compliance and international regulatory developments.
- Case study: European multinational financial reporting compliance.
- Practical assessment of complex accounting policy decisions.

Module 2: Advanced Revenue Recognition – IFRS 15

- Five-step revenue recognition model.
- Identification of performance obligations.
- Variable consideration and contract modifications.
- Principal versus agent considerations.
- Case study: Telecommunications subscription contracts.
- Practical application of revenue recognition disclosures.

Module 3: Lease Accounting – IFRS 16

- Lease identification and classification.
- Recognition of right-of-use assets and lease liabilities.
- Lease modifications and reassessments.
- Discount rates and measurement complexities.
- Case study: Retail chain property lease accounting.
- Practical lease calculations and disclosure preparation.

Module 4: Financial Instruments – IFRS 9

- Classification and measurement of financial assets.
- Expected credit loss impairment methodology.
- Financial liabilities and hedge accounting.
- Derecognition and modification of financial instruments.
- Case study: Banking sector credit impairment assessment.
- Preparation of financial instrument disclosures.

Module 5: Business Combinations – IFRS 3

- Acquisition method and acquisition-date accounting.
- Identification and valuation of acquired assets.
- Goodwill recognition and measurement.
- Contingent consideration and bargain purchases.
- Case study: International corporate acquisition accounting.

- Preparation of business combination disclosures.

Module 6: Consolidated Financial Statements – IFRS 10

- Control assessment and consolidation requirements.
- Subsidiaries and non-controlling interests.
- Intragroup transactions and eliminations.
- Changes in ownership interests.
- Case study: Multinational group consolidation.
- Preparation of consolidated financial statements.

Module 7: Associates and Joint Arrangements – IAS 28 and IFRS 11

- Significant influence and equity accounting.
- Joint operations and joint ventures.
- Recognition of investment-related profits and losses.
- Impairment of investments in associates.
- Case study: International infrastructure joint venture.
- Preparation of investment disclosures.

Module 8: Fair Value Measurement – IFRS 13

- Fair value principles and measurement techniques.
- Fair value hierarchy and valuation inputs.
- Market-based and income-based valuation methods.
- Valuation uncertainties and disclosure requirements.
- Case study: Property investment portfolio valuation.
- Practical fair value measurement exercises.

Module 9: Asset Impairment – IAS 36

- Identification of impairment indicators.
- Recoverable amount and value-in-use calculations.
- Cash-generating units and goodwill impairment.
- Reversal of impairment losses.
- Case study: Manufacturing plant impairment assessment.
- Preparation of impairment-related disclosures.

Module 10: Property, Plant and Equipment – IAS 16

- Recognition and initial measurement of assets.
- Revaluation and depreciation methods.
- Component accounting and asset disposals.
- Capital expenditure and subsequent measurement.
- Case study: Energy company infrastructure assets.
- Practical fixed asset reporting exercises.

Module 11: Employee Benefits and Provisions – IAS 19 and IAS 37

- Defined contribution and defined benefit plans.
- Actuarial assumptions and pension obligations.
- Recognition of provisions and contingent liabilities.
- Measurement of employee benefit obligations.
- Case study: Corporate pension liability assessment.
- Preparation of employee benefit disclosures.

Module 12: Income Taxes – IAS 12

- Current tax and deferred tax accounting.
- Temporary differences and tax bases.
- Recognition of deferred tax assets and liabilities.

- Uncertain tax positions and tax disclosures.
- Case study: Multinational deferred tax reconciliation.
- Practical income tax reporting exercises.

Module 13: Foreign Currency and Financial Reporting – IAS 21

- Functional and presentation currency determination.
- Foreign currency transaction recognition.
- Translation of foreign operations.
- Exchange differences and currency exposure.
- Case study: Multinational foreign subsidiary translation.
- Preparation of foreign currency disclosures.

Module 14: Sustainability Reporting and Emerging IFRS Developments

- IFRS S1 general sustainability-related disclosures.
- IFRS S2 climate-related financial disclosures.
- ISSB standards and sustainability governance.
- Climate-related risks and financial materiality.
- Case study: Global corporation climate risk reporting.
- Integration of sustainability information into corporate reporting.

Module 15: Advanced Financial Statement Preparation and Disclosure

- Preparation of comprehensive IFRS financial statements.
- Statement of financial position and performance.
- Cash flow reporting under IAS 7.
- Accounting policies, estimates, and explanatory notes.
- Case study: Integrated financial reporting for a multinational corporation.
- Final practical IFRS reporting and compliance assessment.

Training Methodology

- Instructor-led presentations and technical IFRS discussions.
- Practical financial reporting exercises and accounting simulations.
- International case studies and industry-based scenarios.
- Group assignments and collaborative problem-solving.
- Financial statement preparation and disclosure workshops.
- Interactive assessments, quizzes, and professional knowledge sharing.
- Real-world application of complex accounting transactions.
- Final practical evaluation and feedback sessions.
