Parliamentary Oversight, Legislative Scrutiny and Accountability Mechanisms Training Course

Introduction

Parliamentary Oversight, Legislative Scrutiny and Accountability Mechanisms Training Course is designed to strengthen the knowledge and practical competencies of parliamentarians, legislative officers, committee members, and governance professionals in conducting effective oversight, scrutinising legislation, monitoring government performance, and enforcing institutional accountability. The programme explores modern parliamentary procedures, legislative review techniques, public expenditure oversight, budget scrutiny, policy evaluation, constitutional compliance, and evidence-based decision-making. Participants will gain practical insights into parliamentary powers, committee investigations, executive accountability, public participation, and the application of international parliamentary standards to strengthen democratic institutions.

Through practical exercises, comparative case studies, simulations, and institutional governance scenarios, participants will develop the capacity to identify accountability gaps, strengthen legislative effectiveness, promote ethical leadership, and improve public sector performance.
