Course Curriculum & Modules

Prosecutorial Ethics, Case Management and Evidence-Based Prosecution Training Course

Introduction

Prosecutorial Ethics, Case Management and Evidence-Based Prosecution Training Course is designed to strengthen prosecutorial competence, ethical leadership, accountability and the effective administration of criminal justice. Prosecutors play a fundamental role in upholding the rule of law, protecting human rights, ensuring fair trials and maintaining public confidence in the justice system. This course provides practical knowledge and advanced skills in prosecutorial ethics, professional integrity, prosecutorial discretion, criminal case management, evidence assessment, trial preparation, disclosure obligations and courtroom advocacy. Participants will explore international prosecutorial standards, constitutional safeguards, anti-corruption frameworks, conflicts of interest, impartial decision-making and the ethical responsibilities associated with exercising prosecutorial powers. Particular emphasis is placed on promoting independence, transparency, fairness and accountability while ensuring that prosecutorial decisions are consistent with applicable laws and professional codes of conduct.

The programme further examines modern approaches to evidence-based prosecution, digital evidence management, forensic investigation, witness protection, case prioritisation and prosecution performance monitoring. Participants will develop practical competencies in evaluating the credibility and admissibility of evidence, identifying evidentiary gaps, managing complex criminal investigations and preparing persuasive, legally sound cases. The training also explores the application of technology-driven prosecution systems, electronic case management, artificial intelligence in legal workflows, data protection, inter-agency collaboration and strategic prosecution planning. Through practical exercises, mock trials, case simulations and comparative case studies, participants will learn how to improve case outcomes while safeguarding the rights of accused persons, victims and witnesses. Ultimately, the course aims to develop ethical, accountable and results-oriented prosecutors capable of delivering efficient, fair and evidence-driven justice in increasingly complex criminal justice environments.

Course Duration

5 Days

Course Objectives

By the end of this course, participants will be able to:

- Understand and apply international standards and national frameworks governing prosecutorial ethics and professional conduct.
- Strengthen professional integrity, independence, impartiality and accountability in prosecutorial decision-making.
- Apply ethical principles when exercising prosecutorial discretion and making charging decisions.
- Identify and manage conflicts of interest, professional misconduct and ethical dilemmas in prosecution.
- Develop effective criminal case management strategies to improve prosecution efficiency and case progression.
- Apply evidence-based prosecution methodologies in evaluating, preparing and presenting criminal cases.
- Assess the relevance, reliability, credibility and admissibility of documentary, testimonial, digital and forensic evidence.
- Strengthen evidence disclosure practices and compliance with fair trial and due process requirements.
- Improve witness interviewing, witness protection and victim-sensitive prosecution approaches.
- Enhance trial preparation, courtroom advocacy, cross-examination and presentation of evidence.
- Apply digital case management systems and technology-enabled prosecution tools.
- Strengthen collaboration between prosecutors, investigators, forensic experts and other criminal justice institutions.
- Develop performance monitoring, quality assurance and accountability mechanisms for sustainable prosecution excellence.

Target Audience
