Public Finance Management Law and Fiscal Accountability Training Course

Introduction

Public Finance Management Law and Fiscal Accountability are fundamental to promoting transparency, accountability, efficiency, and sustainability in the management of public resources. Governments and public institutions are increasingly required to strengthen fiscal governance, improve budget credibility, enhance public expenditure management, and ensure compliance with national legislation and international financial management standards. Public Finance Management Law and Fiscal Accountability Training Course provides an in-depth understanding of the legal, institutional, and regulatory frameworks governing public financial management. It explores critical areas such as public budgeting, fiscal policy, revenue administration, government expenditure control, public procurement regulation, public debt management, financial reporting, internal controls, and public sector auditing. Participants will gain practical knowledge of constitutional provisions, public finance legislation, treasury regulations, parliamentary oversight, and institutional accountability mechanisms that guide the collection, allocation, utilisation, and reporting of public funds.

The course also examines emerging priorities in modern fiscal governance, including digital public financial management systems, fiscal transparency, anti-corruption frameworks, performance-based budgeting, climate-responsive budgeting, public investment management, results-based financing, and sustainable public debt governance. Through practical exercises, comparative legal analysis, interactive discussions, and real-world case studies, participants will develop the competencies required to identify financial irregularities, strengthen institutional controls, assess fiscal risks, and promote responsible stewardship of public resources. The programme is designed to support government officials, finance professionals, policymakers, auditors, legislators, regulators, and development partners in advancing sound public financial governance, evidence-based fiscal decision-making, expenditure accountability, and effective public sector financial oversight.

Course Duration

10 days

Course Objectives

By the end of this training course, participants will be able to:

- Understand the legal and constitutional foundations of public finance management and fiscal governance.
- Interpret public finance management legislation, treasury regulations, and government financial policies.
