Course Curriculum & Modules

Sustainability-Related Financial Risk Disclosure and Governance Training Course

Introduction

Sustainability-Related Financial Risk Disclosure and Governance Training Course provides professionals with the knowledge and practical competencies required to identify, assess, manage and disclose sustainability-related financial risks. As climate change, environmental degradation, social responsibility and corporate governance increasingly influence financial performance, organisations must integrate Environmental, Social and Governance (ESG) considerations into enterprise risk management, financial reporting and strategic decision-making. This course explores emerging sustainability disclosure frameworks, climate-related financial risks, materiality assessments, sustainability reporting standards, regulatory compliance and stakeholder accountability. Participants will examine the implications of International Financial Reporting Standards (IFRS) Sustainability Disclosure Standards, particularly IFRS S1 and IFRS S2, alongside international best practices in sustainability governance.

The training further examines how organisations can strengthen board oversight, improve transparency, enhance corporate accountability and establish effective sustainability risk management frameworks. Participants will develop practical skills in sustainability-related financial disclosures, scenario analysis, climate risk assessment, governance structures and assurance processes. Through international case studies and practical exercises, the course demonstrates how financial institutions, corporations and public sector organisations can integrate sustainability considerations into investment decisions, financial strategies and long-term organisational resilience. It also explores public-private partnerships (PPPs), sustainable finance, stakeholder engagement and emerging regulatory expectations to support credible disclosures and responsible business practices.

Course Objectives

By the end of this course, participants will be able to:

- Understand sustainability-related financial risks and their implications for organisational performance.
- Interpret IFRS S1 and IFRS S2 sustainability disclosure requirements.
- Develop effective ESG governance and accountability frameworks.
- Identify and assess climate-related financial risks and opportunities.
- Apply double materiality and financial materiality assessment techniques.
- Strengthen board oversight and sustainability risk governance.
- Implement sustainability-related financial disclosure frameworks.
- Integrate ESG risks into enterprise risk management systems.
- Apply climate scenario analysis and stress-testing methodologies.
- Improve sustainability reporting transparency and regulatory compliance.
- Evaluate sustainability metrics, targets and performance indicators.
- Strengthen stakeholder engagement and corporate accountability.
- Develop credible sustainability assurance and disclosure strategies.

Organizational Benefits

- Improved sustainability governance and corporate accountability.
- Stronger identification and management of ESG-related financial risks.
- Enhanced regulatory compliance and reporting transparency.
- Better climate risk preparedness and organisational resilience.
- Increased investor confidence and stakeholder trust.
- Improved financial decision-making and capital allocation.
- Stronger board oversight of sustainability performance.
- Reduced exposure to reputational and regulatory risks.
- Improved access to sustainable finance and investment opportunities.
- Enhanced long-term competitiveness and business sustainability.

Target Audiences

- Chief Financial Officers and Finance Directors.

- Chief Risk Officers and Enterprise Risk Managers.
- ESG and Sustainability Managers.
- Corporate Governance Professionals and Company Secretaries.
- Board Members and Senior Executives.
- Financial Analysts and Investment Professionals.
- Internal Auditors, Compliance Officers and Reporting Specialists.
- Regulators, Policymakers and Public Sector Financial Professionals.

Course Duration: 5 days

Course Modules

Module 1: Foundations of Sustainability-Related Financial Risks

- Understanding sustainability-related financial risks and opportunities.
- Environmental, social and governance risk categories.
- Financial implications of climate change and environmental degradation.
- Sustainability risks and enterprise value creation.
- Global case study: European Central Bank climate risk assessment practices.
- Emerging global sustainability regulations and disclosure expectations.

Module 2: International Sustainability Disclosure Standards

- Introduction to IFRS S1 general sustainability disclosure requirements.
- Understanding IFRS S2 climate-related disclosure requirements.
- Sustainability reporting principles and information quality.
- Connectivity between financial statements and sustainability disclosures.
- Global case study: UK-listed companies implementing IFRS-aligned disclosures.
- Practical application of international sustainability reporting standards.

Module 3: Sustainability Governance and Board Oversight

- Board responsibilities in sustainability risk management.
- Establishing ESG committees and governance structures.
- Executive accountability and sustainability performance oversight.
- Integrating sustainability into corporate strategy.
- Global case study: Unilever's sustainability governance approach.
- Developing effective sustainability governance policies.

Module 4: Climate Risk Assessment and Scenario Analysis

- Physical and transition climate-related financial risks.
- Climate scenario analysis and financial stress testing.
- Assessing exposure to carbon-intensive investments.
- Evaluating climate-related financial opportunities.
- Global case study: Bank of England climate scenario exercises.
- Developing climate risk assessment and mitigation strategies.

Module 5: Materiality Assessment and ESG Risk Integration

- Financial materiality and double materiality concepts.
- Identifying material sustainability-related information.
- Integrating ESG risks into enterprise risk management.
- Stakeholder engagement and materiality prioritisation.
- Global case study: European Union Corporate Sustainability Reporting Directive implementation.
- Developing organisational sustainability materiality assessments.

Module 6: Sustainability Metrics, Targets and Performance Measurement

- Establishing sustainability-related metrics and indicators.
- Measuring greenhouse gas emissions and carbon footprints.

- Developing climate-related targets and transition plans.
- Monitoring ESG performance and organisational progress.
- Global case study: Microsoft carbon reduction and sustainability targets.
- Applying sustainability data analytics and performance dashboards.

Module 7: Disclosure Controls, Assurance and Regulatory Compliance

- Establishing reliable sustainability disclosure controls.
- Sustainability data collection, validation and documentation.
- Internal audit and sustainability assurance procedures.
- Managing greenwashing risks and disclosure inaccuracies.
- Global case study: Singapore's sustainability reporting and assurance developments.
- Strengthening regulatory compliance and reporting credibility.

Module 8: Sustainable Finance and Strategic Implementation

- Integrating sustainability risks into investment decisions.
- Sustainable finance instruments and ESG-linked financing.
- Sustainability risk considerations in credit assessments.
- Public-private partnerships (PPPs) and sustainable infrastructure financing.
- Global case study: European Investment Bank climate financing initiatives.
- Developing organisational sustainability disclosure implementation roadmaps.

Training Methodology

- Expert-led presentations and interactive discussions.
- Practical sustainability disclosure exercises and reporting simulations.
- International case studies and group-based learning.
- Climate risk assessment and scenario analysis workshops.
- Governance framework development and peer learning.
- Practical ESG reporting, assurance and compliance exercises.
