Course Curriculum & Modules

Sustainable Finance Regulation and Green Investment Compliance Training Course

Introduction

Sustainable Finance Regulation and Green Investment Compliance Training Course is designed to equip participants with the regulatory knowledge, technical expertise and practical competencies required to navigate the rapidly evolving sustainable finance landscape. This course explores the regulatory foundations of sustainable finance, green investment policies, climate risk management, sustainability reporting, responsible investment principles and international regulatory developments. Participants will gain practical insights into emerging requirements such as the EU Sustainable Finance Disclosure Regulation (SFDR), EU Taxonomy, International Sustainability Standards Board (ISSB) standards, Green Bond Principles and climate-related disclosure frameworks.

Participants will learn how to identify greenwashing risks, assess environmental and social impacts, evaluate sustainable investment opportunities and establish effective compliance systems aligned with international best practices. Through practical exercises, regulatory case studies, investment scenarios and interactive discussions, the course develops the capacity to integrate sustainability considerations into financial decision-making, investment management and corporate governance. By the end of the programme, participants will be better positioned to support responsible capital allocation, strengthen regulatory compliance, mobilise climate finance and contribute to the development of transparent, accountable and sustainable financial markets.

Course Duration

5 Days

Course Objectives

- Understand the principles, regulatory frameworks and emerging trends shaping sustainable finance and green investment markets.
- Interpret international sustainable finance regulations, ESG compliance requirements and responsible investment standards.
- Apply the EU Taxonomy and other green classification systems to evaluate sustainable economic activities.
- Develop effective ESG compliance frameworks for financial institutions, investment firms and corporate organisations.
- Assess climate-related financial risks, including physical risks, transition risks and liability risks.
- Implement sustainable investment strategies aligned with environmental and social responsibility objectives.
- Evaluate green bonds, sustainability-linked bonds and other climate finance instruments.
- Conduct ESG due diligence, sustainability risk assessments and environmental impact evaluations.
- Identify, prevent and manage greenwashing risks through transparent sustainability claims and verification mechanisms.
- Apply ISSB sustainability disclosure standards and other recognised ESG reporting frameworks.
- Strengthen corporate governance, accountability and internal controls for sustainable finance compliance.
- Monitor green investment performance using ESG indicators, sustainability metrics and impact measurement methodologies.
- Develop forward-looking strategies for regulatory compliance, climate finance mobilisation and sustainable investment governance.

Target Audience

- Commercial bank executives, banking professionals and sustainable finance officers.
- Investment managers, portfolio managers and institutional investors.
- ESG analysts, sustainability officers and corporate responsibility professionals.
- Financial regulators, central bank officials and compliance supervisors.
- Risk management professionals and financial compliance officers.
- Environmental specialists, climate finance practitioners and sustainability consultants.
- Corporate finance directors, governance officers and internal auditors.
- Development finance institutions, multilateral organisations, NGOs and green investment project managers.

Course Modules

Module 1: Foundations of Sustainable Finance and Green Investment

- Principles and evolution of sustainable finance.
- Environmental, Social and Governance (ESG) investment frameworks.
- Sustainable development goals and financial sector alignment.
- Green finance, climate finance and transition finance concepts.
- Role of financial institutions in sustainable economic transformation.
- Case Study: Examining how a commercial bank integrates ESG considerations into its lending and investment decisions to support sustainable development projects.

Module 2: International Sustainable Finance Regulations and Standards

- Overview of global sustainable finance regulatory developments.
- EU Sustainable Finance Disclosure Regulation (SFDR).
- EU Taxonomy for environmentally sustainable economic activities.
- ISSB IFRS S1 and IFRS S2 sustainability disclosure standards.
- International Green Bond Principles and sustainability reporting frameworks.
- Case Study: Assessing the regulatory compliance challenges of an international investment firm operating across the European Union and emerging markets.

Module 3: ESG Compliance Frameworks and Regulatory Governance

- Designing institutional ESG compliance policies and procedures.
- ESG governance structures and board-level accountability.
- Regulatory obligations for financial institutions and investors.
- ESG compliance monitoring, internal controls and assurance.
- Managing regulatory breaches and sustainability compliance risks.
- Case Study: Developing an ESG compliance framework for a financial institution responding to new sustainability disclosure and governance requirements.

Module 4: Green Investment Classification and Taxonomy Compliance

- Understanding sustainable investment classification systems.
- Applying environmental sustainability screening criteria.
- Substantial contribution and Do No Significant Harm (DNSH) principles.
- Minimum social safeguards and responsible business conduct.
- Taxonomy alignment assessment and reporting procedures.
- Case Study: Evaluating a renewable energy investment portfolio against EU Taxonomy criteria to determine its environmental sustainability alignment.

Module 5: Climate Risk Assessment and Sustainable Financial Risk Management

- Identifying physical and transition climate-related financial risks.
- Climate scenario analysis and stress testing methodologies.
- Integrating climate risks into enterprise risk management.
- Environmental and social risk assessment in investment decisions.
- Climate risk governance and regulatory supervisory expectations.
- Case Study: Conducting a climate risk assessment for a banking portfolio exposed to agricultural, energy and infrastructure investments.

Module 6: Green Bonds, Climate Finance and Sustainable Investment Instruments

- Green bond issuance frameworks and regulatory requirements.
- Sustainability-linked bonds and performance-based financing.
- Social bonds, blue bonds and transition finance instruments.
- Green loans, blended finance and climate investment facilities.
- Verification, certification and impact reporting requirements.
- Case Study: Examining a green bond financing transaction for a large-scale solar energy project, including proceeds management, reporting and independent verification.

Module 7: Greenwashing Prevention, ESG Due Diligence and Impact Measurement

- Understanding greenwashing and misleading sustainability claims.
- ESG due diligence in investment selection and portfolio management.
- Environmental and social impact assessment methodologies.
- ESG data verification and sustainability assurance.
- Measuring environmental performance and investment impact.
- Case Study: Investigating allegations of greenwashing by an investment fund that marketed environmentally sustainable products without sufficient evidence to support its claims.

Module 8: Sustainable Finance Reporting, Auditing and Compliance Implementation

- Sustainability disclosures and regulatory reporting obligations.
- ISSB-aligned sustainability reporting and climate disclosures.
- ESG performance indicators and impact measurement dashboards.
- Sustainable investment audits and compliance monitoring.
- Developing institutional sustainable finance implementation roadmaps.
- Case Study: Preparing a sustainability compliance and reporting roadmap for a financial institution seeking to improve transparency, regulatory alignment and green investment accountability.

Training Methodology

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.
