Agile Project Management® Foundation Training Course

Introduction

Agile Project Management® Foundation Training Course provides a comprehensive grounding in agile principles, frameworks, and practices used to manage projects in fast-changing, complex, and customer-driven environments. The course introduces agile values, adaptive planning, iterative delivery, stakeholder collaboration, and continuous improvement while aligning agile delivery with organizational governance and business objectives. Participants gain a clear understanding of how agile project management improves responsiveness, reduces risk, enhances value delivery, and supports innovation across industries.

This training emphasizes practical application of agile project management concepts through real-world scenarios, structured frameworks, and performance-focused tools. Learners explore agile roles, ceremonies, backlogs, estimation techniques, risk control, and quality management while understanding how agile differs from traditional project management approaches. The course equips participants with the foundational competence required to support agile teams, contribute effectively to agile projects, and prepare for Agile Project Management® Foundation-level certification or agile adoption initiatives.

Course Objectives

- Understand core agile principles and values underpinning modern project management.
- Explain the agile project lifecycle and iterative delivery approach.
- Apply adaptive planning techniques for changing project requirements.
- Identify agile roles, responsibilities, and team structures.

- Use agile tools for scope, time, cost, and quality management.
- Implement effective stakeholder engagement and collaboration practices.
- Apply risk management techniques in agile environments.
- Manage project governance within agile frameworks.
- Utilize estimation and prioritization techniques for agile delivery.
- Monitor performance using agile metrics and reporting tools.
- Support continuous improvement through retrospectives and feedback loops.
- Align agile project outcomes with organizational strategy and value creation.
- Prepare for Agile Project Management® Foundation certification assessments.
