Base Erosion & Profit Shifting (BEPS) Impacts Training Course

Introduction

Base Erosion and Profit Shifting (BEPS) Impacts Training Course provides an in-depth understanding of the OECD/G20 BEPS framework and its implications on multinational enterprises (MNEs). Participants will explore strategies used by corporations to shift profits and minimize tax liabilities, as well as the global efforts to counter such practices through transparency, substance, and fairness. The course examines the 15 BEPS Action Plans and their implementation across various jurisdictions.
