Course Curriculum & Modules

ERP for Nonprofits: Fund Accounting Modules Training Course

Introduction

In today’s data-driven world, nonprofits are under increasing pressure to manage donations, grants, and fund allocations with transparency and accountability. ERP for Nonprofits: Fund Accounting Modules Training Course is designed to empower financial managers, accountants, and nonprofit leaders with the tools and knowledge to implement Enterprise Resource Planning (ERP) systems effectively. This course bridges the gap between technology and mission-driven financial management, ensuring fund integrity, compliance, and donor confidence through modern ERP frameworks.

Through hands-on practice and real-world case studies, participants will explore fund accounting, budgeting, donor management, and compliance reporting using ERP software tailored for nonprofit operations. The course emphasizes automation, data analytics, and performance optimization to enhance financial decision-making and resource stewardship within nonprofit organizations.
