Course Curriculum & Modules

Government Revenue Administration and Fiscal Compliance Training Course

Introduction

Government Revenue Administration and Fiscal Compliance Training Course is designed to strengthen institutional capacity in public revenue mobilisation, tax administration, fiscal governance, and regulatory compliance. The course provides practical knowledge and strategic skills in government taxation systems, revenue forecasting, tax policy implementation, customs administration, non-tax revenue management, taxpayer registration, compliance monitoring, and public financial management. Participants will explore modern revenue administration frameworks, digital tax transformation, data-driven compliance strategies, risk-based auditing, and international best practices to improve domestic revenue mobilisation and strengthen fiscal sustainability.

The training also examines emerging trends in government revenue collection, including artificial intelligence in tax administration, electronic invoicing, digital taxation, automated compliance monitoring, and international tax cooperation. Through practical exercises and global case studies, participants will learn how to address tax evasion, reduce revenue leakages, improve taxpayer services, strengthen enforcement mechanisms, and enhance transparency and accountability. The course equips government institutions with actionable strategies for improving revenue performance, promoting voluntary compliance, and supporting sustainable economic development.

Course Objectives

By the end of this course, participants will be able to:

- Strengthen government revenue mobilisation and fiscal sustainability.
- Apply modern tax administration and revenue collection frameworks.
- Improve tax compliance, enforcement, and regulatory oversight.
- Develop effective revenue forecasting and budget strategies.
- Identify tax evasion, fraud, and revenue leakage risks.
- Implement risk-based tax auditing and compliance monitoring.
- Strengthen digital taxation and electronic revenue systems.
- Improve taxpayer registration, education, and service delivery.
- Apply international taxation standards and best practices.
- Enhance customs administration and non-tax revenue collection.
- Utilise data analytics and artificial intelligence in compliance management.
- Promote transparency, accountability, and fiscal governance.
- Develop strategies for effective revenue performance measurement.

Organizational Benefits

- Increased domestic revenue mobilisation and collection efficiency.
- Reduced tax evasion, fraud, and revenue leakages.
- Improved fiscal accountability and institutional transparency.
- Stronger regulatory compliance and enforcement capabilities.
- Enhanced revenue forecasting and financial planning.
- Improved taxpayer satisfaction and voluntary compliance.
- Effective digital transformation of revenue administration.
- Better identification and management of fiscal risks.
- Strengthened institutional capacity and operational efficiency.
- Improved alignment with international taxation standards.

Target Audiences

- Government revenue administrators and tax officers.
- Finance directors and public financial management professionals.
- Tax policymakers and fiscal planning specialists.
- Customs and excise administration officers.

- Internal auditors and compliance officers.
- Local government and municipal revenue officials.
- Public sector accountants and economists.
- Regulatory authorities and revenue enforcement professionals.

Course Duration: 5 days

Course Modules

Module 1: Foundations of Government Revenue Administration

- Principles and frameworks of public revenue administration.
- Sources of government revenue and domestic resource mobilisation.
- Institutional structures and revenue administration responsibilities.
- Fiscal governance, transparency, and accountability frameworks.
- Revenue administration reforms and international best practices.
- Case study: Rwanda Revenue Authority's revenue administration reforms.

Module 2: Tax Policy, Legislation and Regulatory Frameworks

- Principles of tax policy development and implementation.
- Direct taxation, indirect taxation, and corporate tax frameworks.
- Tax legislation, regulatory compliance, and enforcement.
- International taxation standards and tax treaty considerations.
- Addressing tax incentives, exemptions, and fiscal distortions.
- Case study: South Africa's tax policy and regulatory administration.

Module 3: Revenue Forecasting and Fiscal Planning

- Government revenue forecasting methodologies and techniques.
- Macroeconomic indicators and revenue performance analysis.
- Budget preparation, revenue targets, and fiscal projections.
- Managing revenue volatility and fiscal sustainability.
- Data-driven forecasting and scenario analysis.
- Case study: Ghana's medium-term revenue forecasting framework.

Module 4: Taxpayer Registration, Services and Compliance

- Taxpayer identification and registration management.
- Taxpayer education and voluntary compliance strategies.
- Customer relationship management in revenue institutions.
- Tax return submission and payment administration.
- Managing taxpayer disputes, complaints, and appeals.
- Case study: Australia's taxpayer service and digital registration systems.

Module 5: Tax Auditing, Investigation and Enforcement

- Risk-based tax audits and compliance assessment.
- Tax fraud detection, investigations, and enforcement.
- Identifying tax evasion and undeclared income.
- Audit evidence, documentation, and reporting procedures.
- Penalties, sanctions, and tax debt recovery.
- Case study: United Kingdom's risk-based tax compliance programme.

Module 6: Digital Revenue Administration and Emerging Technologies

- Electronic tax filing and digital payment platforms.
- Artificial intelligence and automation in tax administration.
- Electronic invoicing and real-time transaction monitoring.
- Big data analytics for compliance risk identification.
- Cybersecurity, taxpayer data protection, and information governance.

- Case study: Estonia's digital government and electronic taxation systems.

Module 7: Customs, Excise and Non-Tax Revenue Management

- Customs revenue administration and border controls.
- Import duties, export taxes, and excise taxation.
- Non-tax revenue sources, licensing, and government fees.
- Combating smuggling, under-invoicing, and customs fraud.
- Improving inter-agency coordination and revenue collection.
- Case study: Singapore's digital customs administration framework.

Module 8: Fiscal Compliance Monitoring and Performance Management

- Developing fiscal compliance monitoring frameworks.
- Revenue performance indicators and institutional benchmarking.
- Internal controls, accountability, and compliance reporting.
- Managing revenue risks and strengthening oversight.
- Continuous improvement and strategic revenue administration reforms.
- Case study: South Korea's integrated national tax administration system.

Training Methodology

- Interactive presentations and facilitated discussions.
- Practical exercises on tax administration and revenue forecasting.
- Group assignments and institutional compliance assessments.
- International case studies and comparative policy analysis.
- Role-playing exercises involving taxpayer audits and investigations.
- Digital revenue administration demonstrations and simulations.
- Group presentations, knowledge-sharing sessions, and action planning.
