Course Curriculum & Modules

Intercompany and Multi-Currency ERP Training Course

Introduction

In today’s fast-paced global business environment, organizations increasingly operate across multiple countries, currencies, and legal entities. Managing intercompany transactions and multi-currency operations efficiently is critical for maintaining financial integrity, regulatory compliance, and operational transparency. Intercompany and Multi-Currency ERP Training Course equips finance and operations professionals with the expertise to streamline intercompany processes, automate currency conversions, and optimize consolidation workflows. Participants will gain practical insights into ERP best practices, real-time reporting, and advanced accounting automation that drive smarter business decisions.

This comprehensive course integrates hands-on exercises, real-world case studies, and industry-standard scenarios to ensure participants not only understand the theoretical framework but can also implement effective solutions in live ERP environments. With a focus on multi-currency management, intercompany reconciliations, and global financial compliance, learners will enhance their ability to improve accuracy, reduce manual effort, and accelerate month-end closing processes. By the end of this training, professionals will be empowered to transform intercompany operations into a streamlined, compliant, and highly efficient process.

Course Duration

5 days

Course Objectives

- Master intercompany accounting and transaction processing in ERP.

- Implement multi-currency financial management effectively.
- Optimize intercompany reconciliation and elimination workflows.
- Streamline global reporting and consolidation processes.
- Automate currency conversion and exchange rate adjustments.
- Ensure compliance with international accounting standards (IFRS/GAAP).
- Improve cash management and liquidity planning across subsidiaries.
- Analyze and monitor intercompany profitability and cost allocations.
- Reduce errors through ERP automation and workflow optimization.
- Enhance financial analytics and real-time dashboards.
- Mitigate foreign exchange risk in multinational operations.
- Strengthen audit readiness and regulatory compliance.
- Apply case-based problem solving in real-world ERP scenarios.

Target Audience

- ERP Finance Professionals
- Accounts Payable/Receivable Teams
- Intercompany Transaction Specialists
- Controllers and Finance Managers
- Treasury and Cash Management Teams
- ERP Implementation Consultants
- Financial Analysts
- Global Business Operations Managers
