Course Curriculum & Modules

Land Use Planning, Environmental Permitting and Development Control Training Course

Introduction

Land Use Planning, Environmental Permitting and Development Control are essential components of sustainable urban development, effective natural resource management and responsible infrastructure investment. Land Use Planning, Environmental Permitting and Development Control Training Course equips participants with practical knowledge and technical skills to manage land resources, prepare integrated spatial development plans, regulate land use activities and implement effective environmental compliance frameworks. Participants will gain insights into international planning standards, regulatory frameworks, development approval procedures and innovative approaches to managing competing land use demands.

The course further examines the relationship between land development, environmental governance, infrastructure planning and regulatory enforcement. Through practical exercises, technical discussions and real-world case studies, participants will develop competencies in evaluating development proposals, conducting environmental screening, reviewing environmental impact assessment reports, issuing environmental permits, monitoring development conditions and enforcing land use regulations. Participants will also explore strategies for addressing unauthorized developments, land use conflicts, environmental degradation and non-compliance with development control requirements. By the end of the programme, participants will be better prepared to formulate evidence-based planning decisions, strengthen environmental permitting systems and promote inclusive, legally compliant and environmentally sustainable development.

Course Duration

5 Days

Course Objectives

- Understand the principles, frameworks and best practices of integrated land use planning and sustainable spatial development.
- Develop effective spatial development plans using GIS mapping, geospatial intelligence and digital planning technologies.
- Apply zoning regulations, land classification systems and development standards to guide sustainable land utilization.
- Interpret land use legislation, environmental regulations, planning policies and institutional governance frameworks.
- Conduct environmental screening and assess development proposals using Environmental Impact Assessment (EIA) methodologies.
- Evaluate Strategic Environmental Assessment (SEA) requirements in policies, programmes and spatial development plans.
- Understand environmental permitting procedures, licensing requirements and regulatory approval processes.
- Assess environmental and social risks associated with infrastructure, industrial and urban development projects.
- Strengthen development control through building approvals, site inspections and regulatory compliance monitoring.
- Integrate climate change adaptation, disaster risk reduction and climate-resilient development into land use planning.
- Promote biodiversity conservation, ecosystem protection and nature-based solutions in development projects.
- Develop effective strategies for managing land use conflicts, unauthorized developments and environmental violations.
- Establish monitoring, reporting and enforcement mechanisms that support sustainable development and environmental governance.

Target Audience

- Urban and Regional Planners, Spatial Planning Officers and Development Control Officers.
- Environmental Officers, Environmental Scientists and Environmental Compliance Specialists.
- Government Officials working in Land Management, Physical Planning and Housing Departments.
- Environmental Regulators, Licensing Officers and Environmental Impact Assessment Practitioners.
- Land Surveyors, Geospatial Analysts, GIS Specialists and Land Information Management Professionals.
- Real Estate Developers, Property Managers, Construction Managers and Infrastructure Development Consultants.
- Architects, Civil Engineers, Environmental Engineers and Urban Design Professionals.
- Policy Makers, Municipal Administrators, Development Agencies, NGOs and Environmental Governance Specialists.

Course Modules

Module 1: Fundamentals of Land Use Planning and Sustainable Spatial Development

- Principles and concepts of land use planning and spatial development.
- Evolution of modern urban and regional planning systems.

- Integrated land use planning and sustainable development frameworks.
- Land resource assessment, classification and utilization strategies.
- Institutional responsibilities and stakeholder participation in spatial planning.
- Case Study: Developing an integrated spatial development framework for a rapidly expanding municipality experiencing population growth, infrastructure pressure and competing land use demands.

Module 2: Land Use Policy, Legal Frameworks and Zoning Regulations

- National and local land use policies and regulatory frameworks.
- Land tenure systems, property rights and land administration.
- Zoning classifications, permitted uses and development restrictions.
- Subdivision regulations, density controls and development standards.
- Land use disputes, enforcement mechanisms and regulatory compliance.
- Case Study: Reviewing a proposed commercial development within a designated residential zone and determining appropriate regulatory interventions and approval requirements.

Module 3: GIS, Digital Mapping and Geospatial Technologies for Land Use Planning

- Geographic Information Systems (GIS) applications in spatial planning.
- Remote sensing, satellite imagery and land cover classification.
- Digital cadastral mapping and land information management systems.
- Spatial data analysis, mapping and development suitability assessments.
- Artificial intelligence, geospatial intelligence and digital planning platforms.
- Case Study: Using GIS and satellite imagery to identify suitable locations for new residential developments while avoiding flood-prone areas, protected ecosystems and agricultural conservation zones.

Module 4: Environmental Impact Assessment and Strategic Environmental Assessment

- Principles and regulatory requirements of Environmental Impact Assessment.
- Environmental screening, scoping and baseline environmental studies.
- Impact identification, prediction and significance evaluation.
- Strategic Environmental Assessment for policies, plans and programmes.
- Environmental and Social Impact Assessment (ESIA) reporting and review procedures.
- Case Study: Evaluating an EIA report for a proposed industrial park, identifying potential impacts on water resources, air quality, biodiversity and surrounding communities.

Module 5: Environmental Permitting, Licensing and Regulatory Approvals

- Environmental permitting frameworks and institutional responsibilities.
- Environmental licence applications and approval procedures.
- Environmental management plans and mitigation requirements.
- Permit conditions, renewal procedures and regulatory documentation.
- Environmental auditing, compliance verification and permit enforcement.
- Case Study: Assessing an environmental permit application for a proposed manufacturing facility and establishing appropriate pollution control, waste management and environmental monitoring conditions.

Module 6: Development Control, Building Approvals and Compliance Monitoring

- Principles and procedures of development control.
- Development applications, planning permissions and building approvals.
- Site inspections, construction monitoring and enforcement procedures.
- Management of unauthorized developments and illegal land conversions.
- Compliance reporting, corrective actions and enforcement notices.
- Case Study: Investigating unauthorized construction within a designated riparian reserve and developing an enforcement strategy that addresses environmental restoration, legal compliance and public safety.

Module 7: Climate-Resilient Land Use Planning and Environmental Protection

- Climate change considerations in spatial and land use planning.
- Flood risk mapping, disaster risk reduction and hazard-sensitive zoning.
- Biodiversity conservation and ecological land management.

- Green infrastructure, urban green spaces and nature-based solutions.
- Sustainable infrastructure, ecosystem restoration and climate adaptation.
- Case Study: Redesigning a municipal land use plan to reduce flood exposure, protect wetlands, establish green corridors and improve urban climate resilience.

Module 8: Integrated Land Governance, Stakeholder Engagement and Sustainable Development

- Institutional coordination in land use and environmental governance.
- Public participation and community engagement in planning decisions.
- Managing land use conflicts and competing development priorities.
- Environmental monitoring, performance indicators and reporting systems.
- Digital governance, transparency and continuous improvement in development control.
- Case Study: Managing competing interests between a proposed housing development, local agricultural communities and an environmentally sensitive ecosystem through stakeholder consultation and integrated land use planning.

Training Methodology

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to DATASTAT CONSULTANCY LTD account, as indicated in the invoice so as to enable us prepare better for you.

Certification & Learning Methodology

- Hands-on practical delivery with real-world datasets, case studies, and lab exercises.
- Post-training mentorship, access to class resources, and customized follow-up support.
- Participants who successfully complete the course receive an accredited Datastat Certificate of Completion.
