Monitoring & Evaluation (M&E) in Construction Training Course

Introduction

Monitoring & Evaluation (M&E) in Construction Training Course is designed to equip professionals with advanced skills in construction project performance tracking, impact assessment, data-driven decision-making, and real-time project control systems. In today's fast-evolving construction industry, organizations demand strong expertise in project monitoring frameworks, KPI development, digital construction analytics, and results-based management (RBM) to ensure efficiency, cost control, and timely delivery of infrastructure projects.

This training integrates modern methodologies such as Building Information Modeling (BIM), Construction Project Lifecycle Monitoring, ESG compliance tracking, and smart construction analytics. Participants will gain hands-on experience in evaluation frameworks, risk monitoring systems, sustainability reporting, and construction performance optimization tools, enabling them to improve accountability, transparency, and productivity across all construction phases.
