Course Curriculum & Modules

Multi-Entity and Global Consolidations in ERP Training Course

Introduction

In today’s fast-paced global business environment, organizations face increasing complexity in managing multiple entities, subsidiaries, and international operations. Multi-Entity & Global Consolidations in ERP systems enable organizations to streamline financial reporting, maintain compliance across jurisdictions, and achieve real-time visibility into enterprise-wide performance. Leveraging advanced ERP functionalities, finance professionals can efficiently consolidate multi-currency, multi-entity, and intercompany transactions, reducing errors, accelerating reporting cycles, and supporting strategic decision-making.

Multi-Entity and Global Consolidations in ERP Training Course is designed to equip finance and ERP professionals with the practical skills and insights needed to implement, manage, and optimize multi-entity and global consolidation processes. Participants will gain hands-on experience with best practices, real-world case studies, and trending ERP tools to enhance operational efficiency, ensure regulatory compliance, and drive data-driven growth in a complex multi-national business environment.

Course Duration

5 days

Course Objectives

By the end of this course, participants will be able to:

- Implement multi-entity ERP solutions for global businesses.
- Execute intercompany transaction automation and reconciliation.

- Manage multi-currency financial consolidation seamlessly.
- Apply regulatory compliance and reporting standards in global ERP.
- Streamline period-end closing processes across subsidiaries.
- Optimize financial data integration from multiple ERP systems.
- Conduct variance analysis and performance reporting efficiently.
- Utilize cloud-based ERP tools for real-time consolidation.
- Design custom consolidation dashboards for leadership reporting.
- Implement data governance and audit controls in multi-entity setups.
- Analyze global financial KPIs and metrics for decision-making.
- Leverage automation and AI-driven financial processes.
- Solve complex multi-entity scenarios using real-world case studies.

Target Audience

- Finance Managers & Controllers
- ERP Functional Consultants
- Corporate Accountants & Analysts
- CFOs and Finance Directors
- IT & ERP Implementation Specialists
- Internal Auditors & Compliance Officers
- Business Process Owners
- Strategic Planning & FP&A Professionals

Course Modules

Module 1: Introduction to Multi-Entity ERP

- Overview of ERP consolidation capabilities
- Challenges in multi-entity management
- Benefits of real-time consolidated reporting
- Case Study: Multi-subsidiary financial integration
- Key ERP platforms for global consolidation

Module 2: Intercompany Transactions

- Intercompany accounting principles
- Automating intercompany invoicing
- Reconciliation processes across entities
- Case Study: Cross-border intercompany adjustments
- ERP tools for transaction tracking

Module 3: Multi-Currency Management

- Currency conversion and translation rules
- Handling exchange rate fluctuations
- Impact on consolidated financial statements
- Case Study: Multi-currency consolidation for an MNC
- Best practices in currency risk management

Module 4: Regulatory Compliance & Reporting

- IFRS vs. GAAP considerations
- Local tax compliance and reporting
- Audit-ready consolidation workflows
- Case Study: Ensuring compliance in Europe & Asia
- Reporting templates and ERP automation

Module 5: Period-End Closing Optimization

- Standardizing closing procedures
- Reducing manual adjustments and errors

- Automating accruals and journal entries
- Case Study: Fast close in multi-entity operations
- ERP tools for closing workflow management

Module 6: Data Integration & Governance

- Centralized and decentralized data models
- Master data management across entities
- Data quality checks and controls
- Case Study: Integrating legacy systems into ERP
- Governance framework for global consolidation

Module 7: Advanced Reporting & Analytics

- Designing executive dashboards
- KPI tracking across multiple entities
- Predictive analytics for financial planning
- Case Study: Real-time global performance monitoring
- ERP reporting tools and BI integration

Module 8: Automation & AI in Global Consolidations

- AI-assisted reconciliations and predictions
- Robotic Process Automation (RPA) in consolidation
- Reducing manual effort in intercompany settlements
- Case Study: AI-driven period-end closing
- Future trends in ERP financial automation

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.
