Course Curriculum & Modules

Oracle Fusion Cloud Projects Training Course

Introduction

Oracle Fusion Cloud Projects is a cutting-edge, integrated project management solution designed to streamline project execution, enhance collaboration, and optimize resource utilization across organizations. Oracle Fusion Cloud Projects Training Course provides hands-on expertise in implementing and managing Oracle Fusion Projects, enabling professionals to efficiently handle budgeting, forecasting, project costing, and performance tracking. Leveraging industry best practices and real-world scenarios, learners gain a comprehensive understanding of project lifecycle management within the Oracle Cloud ecosystem.

Participants will explore advanced functionalities such as automated project costing, real-time analytics, seamless integration with financials and supply chain modules, and actionable insights for strategic decision-making. By the end of this course, learners will be equipped with the skills to drive efficiency, reduce operational risks, and deliver high-impact projects in a cloud-enabled enterprise environment.

Course Duration

5 days

Course Objectives

- Master Oracle Fusion Cloud Projects configuration and implementation techniques.
- Understand project planning, budgeting, and forecasting within Oracle Fusion.
- Learn resource management, allocation, and optimization strategies.
- Develop expertise in project costing, billing, and revenue recognition.

- Gain proficiency in real-time reporting and analytics using Fusion dashboards.
- Implement project governance and compliance controls effectively.
- Explore integration with Oracle Financials, HCM, and Procurement modules.
- Understand advanced project performance metrics and KPIs.
- Apply best practices for project lifecycle management in the cloud.
- Conduct scenario-based simulations for complex project challenges.
- Learn automation techniques to streamline project management processes.
- Gain hands-on experience with Fusion Project Financials and Task Management.
- Prepare for Oracle Fusion Project Cloud certification with practical exercises.

Target Audience

- Project Managers and Program Managers
- Business Analysts and Functional Consultants
- Oracle Fusion Financial Consultants
- IT Professionals and ERP Administrators
- Project Accountants and Cost Controllers
- Solution Architects and Implementation Leads
- ERP System Integrators
- Finance and Operations Managers

Course Modules

Module 1: Introduction to Oracle Fusion Cloud Projects

- Overview of Oracle Fusion Cloud Projects and Architecture
- Understanding Project Lifecycle Management (PLM)
- Project Costing, Billing, Resource Management
- Cloud Deployment and Configuration Basics
- Case Study: Implementing Fusion Projects for a mid-sized IT services company

Module 2: Project Planning and Budgeting

- Creating and managing project templates and tasks
- Resource allocation and role assignments
- Budget creation, approval workflows, and forecasting
- Setting up project baselines and financial plans
- Case Study: Budgeting and forecasting for a construction project

Module 3: Project Costing and Billing

- Cost collection, cost categories, and expenditure tracking
- Billing schedules, rules, and revenue recognition
- Managing unbilled receivables and invoice generation
- Integration with Oracle Financials for reporting
- Case Study: Billing automation for a consulting services project

Module 4: Resource Management

- Resource pools, skill mapping, and availability tracking
- Assigning resources to projects and tasks
- Timesheet entry, approvals, and validation
- Optimizing resource utilization across multiple projects
- Case Study: Resource optimization for a global marketing campaign

Module 5: Reporting and Analytics

- Real-time dashboards and project KPIs
- Standard and custom reporting in Fusion Cloud
- Financial performance analysis and variance tracking
- Using BI tools for predictive project insights

- Case Study: KPI monitoring for a product launch project

Module 6: Project Integration with Oracle Modules

- Integration with Oracle Financials, HCM, and Procurement
- Data flow and inter-module dependencies
- Automating cross-functional project approvals
- Troubleshooting integration issues
- Case Study: Integrating HR and finance data for a corporate IT project

Module 7: Advanced Project Controls and Governance

- Compliance management and audit trails
- Risk and issue tracking for projects
- Approvals, workflows, and change management
- Scenario planning for complex project portfolios
- Case Study: Risk mitigation for a large-scale infrastructure project

Module 8: Hands-on Simulation and Certification Preparation

- End-to-end project lifecycle exercises
- Real-world problem-solving using Oracle Fusion Projects
- Mock project implementation scenarios
- Preparation for Oracle Fusion Projects Cloud certification
- Case Study: Full-cycle project implementation from planning to billing

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.
