Reporting Security and Row-Level Access Control Training Course

Enterprise Resource Planning (ERP) • 5 Days Intensive • Accredited Certification

Course Overview

Reporting Security and Row-Level Access Control Training Course empowers professionals to implement robust security measures, manage user permissions effectively, and maintain compliance with regulatory standards.

Upcoming Training Schedules

Confirmed cohort intakes and venues. Both physical in-person classroom and live virtual online seats are available.

TRAINING DATES	LOCATION / VENUE	FORMAT / DURATION	INVESTMENT (FEE)
29 Dec 2025 – 2 Jan 2026	Nairobi	Classroom / 5d	**$1,500 USD / KES 110,000**
29 Dec 2025 – 2 Jan 2026	Kigali	Classroom / 5d	**$3,000 USD / KES 90,000**
29 Dec 2025 – 2 Jan 2026	Dubai	Classroom / 5d	**$5,000 USD / KES 90,000**
29 Dec 2025 – 2 Jan 2026	Cape Town	Classroom / 5d	**$4,500 USD / KES 90,000**
29 Dec 2025 – 2 Jan 2026	Addis Ababa	Classroom / 5d	**$3,000 USD / KES 90,000**
29 Dec 2025 – 2 Jan 2026	Singapore	Classroom / 5d	**$5,000 USD / KES 90,000**
29 Dec 2025 – 2 Jan 2026	Istanbul	Classroom / 5d	**$5,000 USD / KES 90,000**
29 Dec 2025 – 2 Jan 2026	Bangkok	Classroom / 5d	**$5,000 USD / KES 90,000**
29 Dec 2025 – 2 Jan 2026	Accra	Classroom / 5d	**$4,000 USD / KES 90,000**
5 Jan 2026 – 9 Jan 2026	Nairobi	Classroom / 5d	**$1,500 USD / KES 110,000**
5 Jan 2026 – 9 Jan 2026	Kigali	Classroom / 5d	**$3,000 USD / KES 90,000**
5 Jan 2026 – 9 Jan 2026	Dubai	Classroom / 5d	**$5,000 USD / KES 90,000**

* Corporate discounts and customized cohort scheduling are available for teams of 3 or more participants.

Course Curriculum & Modules

Reporting Security and Row-Level Access Control Training Course

Introduction

In today's data-driven world, organizations face an unprecedented need to protect sensitive information while ensuring efficient reporting and analytics. Reporting Security and Row-Level Access Control Training Course empowers professionals to implement robust security measures, manage user permissions effectively, and maintain compliance with regulatory standards. Participants will gain hands-on experience in securing reports, dashboards, and datasets, ensuring data integrity while enabling authorized users to access actionable insights.

This comprehensive course combines advanced security frameworks, role-based access strategies, and real-world use cases to bridge the gap between theory and practice. By the end of this program, learners will confidently design, implement, and monitor row-level security policies, optimize reporting workflows, and leverage data governance best practices to safeguard enterprise data.

Course Duration

5 days

Course Objectives

By the end of this training, participants will be able to:

- Implement row-level security (RLS) in reporting platforms.
- Design role-based access control (RBAC) for enterprise systems.
- Configure data-level permissions for sensitive datasets.

- Audit and monitor user access across reports and dashboards.
- Ensure compliance with GDPR, HIPAA, and other regulations.
- Apply best practices for secure report publishing.
- Automate access management workflows for large teams.
- Mitigate data breach risks through structured access controls.
- Optimize performance and scalability of secure reports.
- Leverage data masking and encryption techniques in reporting.
- Integrate security monitoring tools for real-time alerts.
- Develop custom security policies aligned with business requirements.
- Analyze security incidents and audit logs to prevent future breaches.

Target Audience

- Data Analysts & Business Intelligence Professionals
- Data Engineers & Database Administrators
- IT Security & Compliance Officers
- BI Developers & Report Designers
- Enterprise Architects & Solution Designers
- Risk & Governance Specialists
- Cloud & On-Premise Data Platform Administrators
- Decision Makers responsible for data governance policies

Course Modules

Module 1: Introduction to Reporting Security

- Overview of data security in BI platforms
- Key principles of row-level security
- Role-based access vs. user-based access
- Case Study: Security failure in a retail analytics platform
- Configuring basic access permissions

Module 2: Role-Based Access Control (RBAC)

- Designing roles and hierarchies
- Assigning permissions to roles
- Mapping business functions to access levels
- Case Study: Implementing RBAC in a multinational organization
- Creating roles and testing access

Module 3: Row-Level Security Implementation

- Defining row-level access policies
- Dynamic vs. static RLS configurations
- Best practices for dataset-level security
- Case Study: Financial services firm using dynamic RLS
- Implementing RLS in sample datasets

Module 4: Data Masking & Encryption

- Techniques for masking sensitive data
- Encryption strategies in reporting tools
- Maintaining usability without compromising security
- Case Study: Healthcare analytics platform with masked PII
- Encrypting and masking sensitive fields

Module 5: Audit & Compliance Monitoring

- Tracking user activity and access logs
- Auditing reports and dashboards for compliance
- Regulatory requirements: GDPR, HIPAA, CCPA

- Case Study: Audit workflow in a banking organization
- Setting up automated audit alerts

Module 6: Access Automation & Workflow Management

- Automating role assignments and access approvals
- Integration with identity management systems
- Reducing manual errors in security management
- Case Study: Large-scale automation in a retail chain
- Configuring automated access workflows

Module 7: Security Optimization & Performance

- Optimizing queries for secure datasets
- Impact of RLS on report performance
- Techniques to improve scalability and efficiency
- Case Study: Performance tuning of a global BI platform
- Testing and optimizing secure reports

Module 8: Security Incident Handling & Best Practices

- Identifying security breaches and vulnerabilities
- Incident response and mitigation strategies
- Documenting and learning from security incidents
- Case Study: Data breach in a cloud analytics service
- Simulated incident handling and reporting

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Register as a group from 3 participants for a Discount

Send us an email: info@datastatresearch.org or call +254724527104

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to DATASTAT CONSULTANCY LTD account, as indicated in the invoice so as to enable us prepare better for you.

Certification & Learning Methodology

- Hands-on practical delivery with real-world datasets, case studies, and lab exercises.
- Post-training mentorship, access to class resources, and customized follow-up support.
- Participants who successfully complete the course receive an accredited Datastat Certificate of Completion.

How to Enroll & Reserve Your Seat

1. Online Registration: Visit https://datastatresearch.org/courses/reporting-security-and-row-level-access-control-training-course to register online.
2. Email Booking: Send participant details to training@datastatresearch.org for official invoice & reservation.
3. Support & Assistance: Inquire via phone +254 724 527 104 | +254 734 969 612.
